## Dubbed Out Trip Hop Electronic Funk

---

### BIO

The ARC is a three piece original live project with heavy Electronic influence, deep Hip-Hop lyricism, and Dub/Reggae elements that push the boundaries of underground big room, and festival dance floor vibes. Featuring Noah Prescott aka [Knowah](#) (Vocals), Daniel Wander aka [Beat Thief inc](#) (Turntables/Samples), and Jay Tea aka [Def.Adept](#) (Drums & Synth). Each member has their own extensive catalog of prior releases and tour history, playing alongside many national acts. This project kicked off in 2022 with a full length feature album release titled "ONE" with cutting edge music videos to match. Their first Music Video "[Xero Zero](#)" featuring James Begin (Tropidelic) has been won three International Film Festival Awards for Best Music Video, one at the International Music Video Awards Festival in London (IMVA), one at the New York Neorealism Film Awards, and another at 8 & Halfilm Awards along with an official selection at the Golden Giraffe International Film Festival in France 2023. Each member of the band is well known for their feature performances and

consultation on production/design and collaborations with some of the biggest touring acts in the country and beyond.
